WNO

Ghost Cat

You'll need:

- A printer and printer paper
- Scissors
- Card
- Glue
- Sticky tape
- Felt pens, pencils or crayons
- String, wool or ribbon

Print out the file for the ghost cat.

Glue the print-outs to pieces of thin card. Maybe use an empty cereal packet? Ask an adult for help.

When the glue is dry cut carefully around the ghost cat.

Colour in the stars on the ghost if you like, maybe add some other decorations too.

Next, rip a piece of white paper (or even newspaper) lengthways again and again, until you have several long thin strips. Ask an adult for help.

Attach the strips in a row along the bottom edge of the back of the ghost cat, using tape or glue, so that they trail down spookily.

Loop and knot a piece of string or wool and tape it to the back of your ghost cat near the top so that you can hang it up! Purrfect!
